# The Primary Objective of Pre-Sale

Objective	Success Metrics
Leveraging resources from existing and future investments to expedite the token launch process by the predetermined timelines for initiating our cross-border transactions platform.	Closure of pre-sale by the target dates to list the token.
	Gradual increase in the token's price following its launch.
	Attracting a larger user base by demonstrating market liquidity and the capacity to accommodate significant trading volumes.

## Notes

- Investors with other crypto tokens will be able to exchange them for fipcoins through “connect wallet” option
- Investors interested in purchasing fipcoin with their local currencies can request the account details to make the purchase, which will also be visible on our dashboard after signup.
- Tokens will be instantly distributed to the investors on a first-come, first-served basis.
- Investors are required to retain the tokens for a minimum of 6 months to realize the anticipated returns, which become accessible after this period.
- Monthly returns on fresh investments will be disbursed every month.
- Monthly returns on existing investments from FIP will be disbursed quarterly.
- The security of our servers & your wallets will always be monitored by our elite cybersecurity team.

## Request

We'd like to ask all current and prospective investors to contribute towards the significant success of our project by increasing liquidity before the specified deadlines. This initiative will stimulate increased trading volumes, demonstrating our project's credibility to a broader spectrum of exchanges. Subsequently, our remittance platforms will be launched to align with these pivotal objectives.
